Management Discussion and Analysis

Our discussion and analysis of the Elbert County Library District dba Pines and Plains Libraries (the District) financial performance provides an overview of the District’s financial activities for the year ended December 31, 2019. Please read it in conjunction with the District’s financial statements.

Statement of Net Position and Statement of Activities – Governmental Activities

The Statement of Net Position includes all the District’s assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

From 2018 to 2019, the District’s total net position increased by \$304,964. Until December of 2019, cash constituted much of this increase. At the end of 2019—and the fiscal year—the District appropriated a total \$866,261 from the general fund in order to pay-in-full the Lease Purchase Option (LPO) for the Elizabeth Library two years early.

Therefore, the year-end balance of the general fund decreased by \$489,528. Receivables, which are mostly tax revenue, went up by \$159,947. Capital assets decreased by \$41,877, which is mostly attributable to depreciation. Total assets decreased by \$462,340, also due to the LPO final payment.

Liabilities decreased by \$693,485. PERA pension liabilities increased by \$141,263. As outlined in subsequent sections, the District cannot be held accountable for these liabilities, but standard government accounting practices dictate that these must be recorded as liabilities to the District. The Elizabeth facility LPO constituted the lion’s share of long-term liabilities in 2018. Therefore, in 2019, those liabilities decreased by \$837,820. Administration opines that the substantial increase in net position from 2018 to 2019, as compared to previous years, indicates that the District’s financial position has improved significantly.

The Statement of Activities reports information about the District as a whole, showing how the District’s net position changed during the most recent fiscal year. These statements are prepared on the accrual basis of accounting, and they reflect all of the current year’s revenues and expenses, regardless of when cash is received or paid.

| Net position – ending | <u>\$ 1,426,227</u> | <u>\$ 1,115,263</u> | <u>\$ 310,964</u> |

As shown in the table above, total expenses, not including the general fund appropriation for the LPO payoff, decreased by \$164,385 from 2018 to 2019. Operating expenses decreased by \$4,254. Administration cannot attribute one cause to this reduction, except, perhaps, a dedication among management to find savings and adhere to a policy of spending less than the District earns in revenues. Pension expenditures seem to have decreased quite a bit. However, PERA expenses require unique handling, as outlined below. Interest expenses went down by \$1,253 due to a reduction in principal for the Elizabeth LPO.

Program revenues in the District include charges for services such as fees for damaged items, copies, faxes, and meeting rooms, as well as grant monies. Total program revenues decreased by \$4,597. Grant funding, as well as use of copies/fax services, decreased over the course of the year. Somewhat counter-intuitively, the District's elimination of late fees seems to have resulted in an uptick of lost item returns. This reduction of program revenues due to item returns benefits the District overall.

General revenues increased by \$36,524, with property tax revenue going up by \$14,203 and SOT revenue getting a boost of \$21,635. These are the District's primary sources of revenue. Other, much less significant sources of revenue increased slightly as well.

As described in Notes 5 and 7 of the financial statements, the District contributes to a cost-sharing multiple-employer defined benefit plan and other post-employment benefit plan administered by the Public Employees' Retirement Association (PERA). During 2019, the District continued reporting for PERA in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* (GASB 68) and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions* (GASB 75), both which require employers to record their proportionate share of the plans' net unfunded pension liability.

As a result of the adherence to GASB 68 and 75, the District recorded a net pension and other postemployment benefits liability of \$813,799 in addition to the related deferred outflows and inflows noted on the above statement of net position and more fully described in Notes 1, 5 and 7 to the financial statements. The District has no legal obligation to fund this shortfall, nor does it have any ability to affect funding, benefits or annual required contribution decisions made by PERA in administering the defined benefit pension plan.

The governmental fund financial statements provide detailed information about the District's general fund. Due to the fact the District does not operate business-type activities, the governmental fund financial statements closely mirror the Statement of Net Position and the Statement of Activities; the only differences being the method of accounting used to prepare the two different sets of financials. All of the District's services are reported in the governmental fund, which focuses on how money flows into and out of those funds and the balances left at year-end that are available for spending.

These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. Therefore, capital expenditures are reported as a current period expense and long-term liabilities are recorded when currently payable, rather than when an obligation is incurred. As such, the amounts reported for 2019 in the governmental fund financial statements exclude capital assets, changes in liabilities for compensated absences, the lease payable and the adoption of GASB 68 and 75. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

As the balance sheet indicates, the general fund decreased by \$592,967 from 2018 to 2019 due to the Elizabeth LPO pay-off. In turn, the total asset increase listed on the balance sheet was \$420,453. The Elizabeth facility is now counted among the District's assets. In turn, there are fewer liquid assets available at year-end 2019. Total liabilities increased by \$3,072 during 2019.

Fiscal Responsibility Leads to Improvement

In 2009—prior to the tenure of the current administration and governing board—the District acquired the Elizabeth facility for \$1,450,000, incurring a heavy burden of annual debt payments. Previous leadership’s subsequent decision to renovate 5,200 square feet of the Elizabeth facility for the current library resulted in a significant depletion of the general fund and an increase in expenses. In order to mitigate overbearing debt and expenses associated with the Elizabeth facility, and to increase the general fund for future capital improvements, the current administrators and staff have engaged in austere measures since 2015.

Revenues have exceeded expenses significantly for the past five years, and the general fund has increased, culminating in the Elizabeth Lease Purchase Option pay-off in December of 2019. Improved property tax and SOT revenue have also allowed administration and the Board of Trustees to increase hours, expand staff, restructure the organization, provide more full-time positions with benefits, and increase base pay for all positions. These improvements allow the District to provide the best customer service in Elbert County. Now, we turn our collective eye toward fiscal planning for improved libraries.

Good Financial Stewardship and Planning will Lead to Better Libraries

Over 10,000 square feet of space at the Elizabeth facility remains undeveloped. The Elizabeth area, and, particularly, the northwest corner of Elbert County, are experiencing significant commercial and residential development. A rapidly increasing population in this area will require service capacity improvement in the form of bigger and better libraries.

Just seven miles away from Elizabeth, the tiny and iconic “old church” Kiowa Library has reached its service capacity as well. On the other end of the county, the Simla Library operates as a cornerstone to the community, providing critical services to rural citizens far and wide. The District has relied on Elbert School to provide space for a public library with minimal hours and services. Moving forward, each library will require a better building.

All District libraries need to expand. Nonetheless, the District remains steadfast in its aversion to debt and its fiscally responsible governance. Administration is wary of a potential downturn in the economy. Sound fiscal planning will allow the district to weather challenges and expand libraries responsibly. Administration began the first steps to planning in years prior.

Each year, administration reviews and revises a long-range fiscal plan, integrating multiple internal and external variables as different potential scenarios. Variables considered in this living document include assessments, unforeseen expenses, economic factors, state policy, and more. The resulting scenarios allow the District to plan for most contingencies and to mitigate many potential pitfalls before they occur. The District has begun to prepare for library improvements in other ways as well.

As part of the 2020 Budget planning process, leadership established a capital improvements fund. The Board of Trustees also determined that the expansion of the Elizabeth facility will take top priority for library improvements. As the District works with the Pines & Plains Libraries Foundation to procure grants and donations, it will also build both the capital improvement and the general fund toward actualizing this priority. Improvements of other libraries will follow.

Sincerely,

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Elbert County Library District *dba* Pines & Plains Libraries

We have audited the accompanying financial statements of the governmental activities and major fund of the Elbert County Library District *dba* Pines & Plains Libraries, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the Elbert County Library District *dba* Pines & Plains Libraries, as of December 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Elbert County Library District (the District) was established in 2000 as a library district to provide library services within Elbert County, Colorado. A five-member Board of Trustees, initially appointed by the Elbert County Board of Commissioners and now appointed upon the recommendation of the Elbert County Library District Board of Trustees and ratified by the Board of Commissioners, governs the District.

The District maintains libraries in Kiowa, Elizabeth and Simla, Colorado. In addition, the District provides joint library services in Elbert, Colorado at the Elbert School.

Financial Reporting Entity

All activities of the District are included in the financial statements. The District does not have any component units over which it exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the District (as distinct from legal relationships).

Basis of Presentation

The basic financial statements are presented in a combined format for both the fund and government-wide level. These include the balance sheet – governmental fund / statement of net position and the statement of revenues, expenditures and change in fund balance – governmental fund / statement of activities.

Governmental Fund Financial Statements: Governmental fund financial statements are organized into three major categories: governmental, proprietary and fiduciary; the District has no proprietary or fiduciary funds. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund balance, revenues and expenditures. An emphasis is placed on major funds within the governmental and proprietary categories.

A fund is considered a major fund if it is the primary operating fund. The general fund is the primary operating fund of the District and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds. The District utilizes the general fund exclusively of which it is charged with all costs of operating the District due to the fact a separate fund has not been established.

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Government-wide Financial Statements: The Statement of Net Position and Statement of Activities display information about the reporting government as a whole and include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities; the District has no business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus:

In the governmental fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

- Current Financial Resources - Only current financial assets and liabilities are generally included on the balance sheet. Operating statements present sources and uses of available spendable financial resources during a given period. The fund uses a fund balance as the measure of available spendable financial resources at the end of the period.
- Economic Resources - The accounting objectives of this measurement focus are the determination of operating income, changes in fund balance (or cost recovery), financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.
- The agency fund is not involved in the measurement of results of operations; therefore, measurement focus is not applicable to it.

In the government-wide financial statements, governmental activities are presented using the economic resources measurement focus as defined above.

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Basis of Accounting:

In the governmental fund financial statements, governmental funds and agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred.

In the government-wide financial statements, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Assets, Liabilities and Fund Balance/Net Position

Cash and Investments:

Colorado Revised Statutes (CRS) authorize the District to invest in certain obligations of the U.S. Treasury and U.S. agencies, commercial paper, repurchase agreements, local government investment pools and other specific investments.

The District limits its exposure to credit risk, which is the risk of loss due to the failure of the security issuer or backer, by diversifying the investment portfolio so that potential losses on individual securities will be minimized and by limiting investments to specific credit ratings.

Furthermore, District funds may only be deposited in banks that are members of the Federal Deposit Insurance Corporation (FDIC) or have been designated by the State Banking Board as an eligible public depository under the Colorado Public Deposit Protection Act (PDPA). Under the provisions of PDPA, amounts on deposit in excess of federal insurance levels must be collateralized by the depository using securities with a market value of 102% of the aggregate uninsured deposits. The State Regulatory Commission for banks and financial services is required by statute to qualify eligible PDPA depositories, limit the types of securities that can be used for collateral and monitor the reporting of uninsured deposits and assets maintained in the collateral pools.

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Accounts Receivable:

Accounts receivable consist of special ownership tax revenues earned at year-end and not yet received due to difficulties encountered with a software upgrade conducted state-wide by the State of Colorado.

Property Taxes Receivables:

Property tax receivables are net of an allowance for uncollectable accounts. Property values are assessed and a lien placed on the property as of January 1. Property taxes are levied no later than December 22. Taxes are payable in the following year, either in full by April 30, or in two equal payments due February 28 and June 15. Property taxes levied in the current year and payable in the following year are reported as a receivable and deferred inflows of resources at December 31. Revenue is recognized upon collection; therefore, in the following year the receivable is recorded.

Prepays:

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the governmental fund and government-wide financial statements.

Capital Assets:

The accounting treatment over capital assets, which include land, buildings, furniture, equipment and library materials, depends on whether the assets are reported in the governmental fund or government-wide financial statements.

Governmental Fund Financial Statements: In the governmental fund financial statements, capital assets are expensed when purchased.

Government-wide Financial Statements: In the government-wide financial statements, capital assets with an initial, individual cost of \$5,000 or more (except library material which are capitalized regardless of cost) and an estimated useful life of more than one year, are recorded at historical cost or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation. Maintenance, repairs and minor renewals are charged as expenditures when incurred.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets estimated useful lives using the straight-line method of depreciation. Capital assets are depreciated over their estimated useful lives of five to forty years.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Unearned Revenue:

Grant funds received from grantors which are applicable to future accounting periods are recorded as unearned revenue in both the governmental fund and government-wide financial statements; these funds will be recognized as revenue in the year earmarked by the grantor.

Deferred Outflows of Resources:

In addition to assets, the Statement of Net Position will sometimes include a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period or periods and will not be recognized as an outflow of resources until that period. The District has recognized deferred outflows of resources in the government-wide financial statements in accordance with the presentation requirements for GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27* (GASB 68) and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions* (GASB 75).

Long-Term Debt:

The accounting treatment of long-term debt depends on whether it is reported in the governmental fund or government-wide financial statements.

Long-term debt for governmental funds is not reported as liabilities in the governmental fund financial statements. The debt proceeds are reported as other financing sources and payment of principle and interest reported as expenditures.

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. Long-term debt consists of accrued compensated absences and a capital lease.

Compensated Absences:

The District's liability for compensated absences consists of accrued vacation, personal and sick time due to employees. The liability for compensated absences is reported in the government-wide financial statements when accrued and only recorded in the governmental fund financial statements when the amount is due to the employee, for example, when an employee takes vacation, personal or sick time, resigns or retires.

Pensions:

The District participates in the Local Government Division Trust Fund (LGDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the LGDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years. The bill was signed into law by Governor Hickenlooper on June 4, 2018. A brief description of some of the major changes to plan provisions required by SB 18-200 for the LGDTF that were in effect on the LGDTF's December 31, 2018 measurement date are listed below. A full copy of the bill can be found online at www.leg.colorado.gov.

- Increases employee contribution rates for the LGDTF by a total of 2 percent (to be phased in over a period of 3 years starting on July 1, 2019).
- Modifies the retirement benefits, including temporarily suspending and reducing the annual increase for all current and future retirees, increases the highest average salary for employees with less than five years of service credit on December 31, 2019 and raises the retirement age for new employees.
- Member contributions, employer contributions, the direct distribution from the State, and the annual increases will be adjusted based on certain statutory parameters beginning July 1, 2020, and then each year thereafter, to help keep PERA on path to full funding in 30 years.
- Expands eligibility to participate in the PERA DC Plan to members of the Local Government Division hired on or after January 1, 2019. Beginning January 1, 2021, and every year thereafter, employer contribution rates for the LGDTF will be adjusted to include a defined contribution supplement based on the employer contribution amount paid to defined contribution plan participant accounts that would have otherwise gone to the defined benefit trusts to pay down the unfunded liability plus any defined benefit investment earnings thereon.

Other Post Employment Benefit (OPEB) Plan:

The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Inflows of Resources:

In addition to liabilities, the Statement of Net Position will sometimes include a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period or periods and will not be recognized as an inflow of resources until that period. The District has recognized deferred inflows of resources in the government-wide financial statements in accordance with the presentation requirements for property taxes, GASB 68 and GASB 75.

Fund Balance/Net Position:

The District reports fund balance and net position in accordance with the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This statement identifies fund balance categories to make the nature and extent of the constraints placed on a governmental entity's fund balances more transparent.

The following classifications describe the relative strength of the spending constraints under GASB 54:

- Nonspendable – This classification represents all assets which are not expected to convert to cash (i.e. prepaid expenses).
- Restricted – This classification represents amounts constrained to specific purposes by external parties such as grantors, contributors or through constitutional provisions. Restricted fund balances also include revenues raised pursuant to legislations that restrict the use of funds to a specific purpose.

ELBERT COUNTY LIBRARY DISTRICT
dba PINES AND PLAINS LIBRARIES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Fund Balance/Net Position (Continued):

- Committed – This classification represents amounts constrained to specific purposes by the District’s Board of Trustees. To be reported as committed, amounts cannot be used for any other purpose unless the District’s Board of Trustees takes action to remove or change the constraint. Fund balance commitments are established, modified or rescinded by the adoption of Board resolutions.
- Assigned – This classification represents amounts the District intends to use for a specific purpose. Intent can be expressed by either the District’s Board of Trustees or by an official or body to which the Board delegates the authority.
- Unassigned/Unrestricted – This classification represents amounts that are available for any purpose.
- Investment in capital assets – This classification represents capital assets net of accumulated depreciation and related debt.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed. When amounts in multiple unrestricted fund balance classifications could be used, the District considers committed funds to be used first, then assigned and finally unassigned fund balances.

The lease requires semi-annual principal and interest payments of \$34,672 through June 2021 and one final balloon payment in December 2021 at which time the lease terminates.

During 2019 the District paid off the capital lease commitment.

Governmental Fund Financial Statements: In the governmental fund financial statements the asset and liability under the capital lease have not been recorded; instead the related lease payments are reported as expenditures when paid.

Total lease payments (principal and interest) for the year ended December 31, 2019 was \$866,290.

Government-wide Financial Statements: In the government-wide financial statements, the lease has been treated as a capital lease and the related asset and liability has been recorded accordingly. Depreciation of the asset under the capital lease is included in depreciation expense for 2019.

NOTE 5 **DEFINED BENEFIT PENSION PLAN**

Plan Description: Eligible employees of the District are provided with pensions through the Local Government Division Trust Fund (LGDTF) – a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits Provided as of December 31, 2018: PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. Section 24-51-602, 604, 1713 and 1714.

NOTE 5 **DEFINED BENEFIT PENSION PLAN (Continued)**

Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annualized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

As of December 31, 2018, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments in certain years, referred to as annual increases in the C.R.S. Pursuant to SB 18-200, there are no annual increases (AI) for 2018 and 2019.

NOTE 5 DEFINED BENEFIT PENSION PLAN (Continued)

Thereafter, benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure will receive an annual increase, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 1.5 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 will receive the lesser of an annual increase of 1.5 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA’s Annual Increase Reserve (AIR) for the LGDTF. The automatic adjustment provision may raise or lower the aforementioned AI for a given year by up to one-quarter of 1 percent based on the parameters specified C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of December 31, 2019: Eligible employees and the District are required to contribute to the LGDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. Section 24-51-401, *et seq.* Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

| | Rates |
|--|---------|
| Employer Contribution Rate | 10.00% |
| Amount of Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. Section 24-51-208(1)(f) | (1.02)% |

Employer contributions are recognized by the LGDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contribution to the LGDTF. Employer contributions recognized by the LGDTF from the District were \$49,667 for the year ended December 31, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2019, the District reported a liability of \$750,791 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017. Standard update procedures were used to roll forward the total pension liability to December 31, 2018. The District proportion of the net pension liability was based on the District's contributions to the LGDTF for the calendar year 2018 relative to the total contributions of participating employers to the LGDTF.

At December 31, 2018, the District's proportion was .0597188073 percent, which was an increase of .0043393509 percent from its proportion measured as of December 31, 2017.

For the year ended December 31, 2019, the District recognized pension expense of (\$61,520). At December 31, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |

Actuarial assumptions: The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs:

| | |
|---|---|
| Actuarial cost method | Entry age |
| Price inflation | 2.40 percent |
| Real wage growth | 1.10 percent |
| Wage inflation | 3.50 percent |
| Salary increases, including wage inflation | 3.50 – 10.45 percent |
| Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation | 7.25 percent |
| Discount rate | 7.25 percent |
| Post-retirement benefit increases: | |
| PERA Benefit Structure hired prior to 1/1/07 and DPS Benefit Structure (automatic) | 2.00 percent |
| PERA Benefit Structure hired after 12/31/06 (ad hoc, substantively automatic) | Financed by the Annual Increase Reserve |

The revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2017 to December 31, 2018:

| | |
|---|--|
| Discount rate | 7.25 percent |
| Post-retirement benefit increases: | |
| PERA benefit structure hired prior to 1/1/07 and DPS benefit structure | 0% through 2019 and 1.5% Compounded annually, thereafter |
| PERA benefit structure hired after 12/31/06 (ad hoc, substantively automatic) | Financed by the Annual Increase Reserve |

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. NOTE 5 **DEFINED BENEFIT PENSION PLAN (Continued)**

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the LGDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

NOTE 5 DEFINED BENEFIT PENSION PLAN (Continued)

As of the most recent adoption of the current long-term expected rate of return by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | 30 Year Expected Geometric Real Rate of Return |
|-----------------------------------|-------------------|--|
| U.S. Equity - Large Cap | 21.20% | 4.30% |
| U.S. Equity - Small Cap | 7.42% | 4.80% |
| Non U.S. Equity - Developed | 18.55% | 5.20% |
| Non U.S. Equity - Emerging | 5.83% | 5.40% |
| Core Fixed Income | 19.32% | 1.20% |
| High Yield | 1.38% | 4.30% |
| Non U.S. Fixed Income - Developed | 1.84% | 0.60% |
| Emerging Market Bonds | 0.46% | 3.90% |
| Core Real Estate | 8.50% | 4.90% |
| Opportunity Fund | 6.00% | 3.80% |
| Private Equity | 8.50% | 6.60% |
| Cash | 1.00% | 0.20% |
| Total | 100.00% | |

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount rate: The discount rate used to measure the total pension liability was 4.78 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.

ELBERT COUNTY LIBRARY DISTRICT
dba PINES AND PLAINS LIBRARIES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 5 **DEFINED BENEFIT PENSION PLAN (Continued)**

- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law, including current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, LGDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Funding Policy: The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. The District does not match any of the employee contributions. Employees are immediately vested in their own contributions and investment earnings. For the year ended December 31, 2019, program members contributed \$1,650 to the Voluntary Investment Program.

NOTE 7 **DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN**

Plan description: Eligible employees of the District are provided with OPEB through the HCTF – a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided: The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

PLAN (Continued)

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

DPS Benefit Structure

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Contributions: Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the District were \$3,995 for the year ended December 31, 2019.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2019, the District reported a liability of \$63,008 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2017. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2018. The District's proportion of the net OPEB liability was based on the District's contributions to the HCTF for the calendar year 2018 relative to the total contributions of participating employers to the HCTF.

| DPS benefit structure: | |
| Service-based premium subsidy | 0.00 percent |
| PERACare Medicare plans | N/A |
| Medicare Part A premiums | N/A |

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

The actuarial assumptions used in the December 31, 2017, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA's actuary, as discussed below.

In determining the additional liability for PERACare enrollees who are age sixty-five or older and who are not eligible for premium-free Medicare Part A, the following monthly costs/premiums are assumed for 2018 for the PERA Benefit Structure:

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2017, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates - The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

| | 1% Decrease in Trend Rates | Current Trend Rates | 1% Increase in Trend Rates |
|-------------------------------------|----------------------------|---------------------|----------------------------|
| PERACare Medicare trend rate | 4.00% | 5.00% | 6.00% |
| Initial Medicare Part A trend rate | 2.00% | 3.00% | 4.00% |
| Ultimate Medicare Part A trend rate | 3.25% | 4.25% | 5.25% |
| Net OPEB Liability | \$ 61,270 | \$ 63,009 | \$ 65,011 |

NOTE 7 **DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB)**
PLAN (Continued)

Discount rate - The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2018, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

NOTE 9 **RELATED ORGANIZATIONS**

The Elbert County Libraries Foundation dba Pines & Plains Libraries Foundation (the Foundation): The Foundation was established in 2009 to aid, assist and support financially and otherwise the libraries of the Elbert County Library District dba Pines and Plains Libraries. Although the Foundation was created for the direct benefit of the District, the Foundation is not reported as a component unit due to the following:

- The District does not appoint or elect a majority of the Foundation's board of directors
- The District cannot impose its will on the Foundation by significantly influencing the program, projects, activities, or level of service performed by the Foundation
- The District does not have the ability to access the economic resources received by the Foundation
- The Foundation is not fiscally depended on the District
- The Foundation does not have a financial benefit or burden relationship with the District

During the year ended December 31, 2019, the Foundation replaced the stairs at the Kiowa Library; as a result, the District has recorded an in-kind contribution equal to \$5,000 (the cost incurred by the Foundation). Information regarding the Foundation can be obtained at www.eclf.info.

Elizabeth Friends of the Library, Kiowa Friends of the Library, Elbert Friends of the Library and Simla Friends of the Library (the Friends): The Friends are a group of volunteers organized in each respective library's community who exist to provide advocacy, volunteer support, fundraising and community involvement for each library branch.

Funds are raised from book sales, silent auctions and general donations. Funds are contributed to the District to aid in improving the facilities and services provided at each library branch.

During 2019, each library branch received various incidental in-kind contributions which have not been recorded in the financial statements due to immateriality. Nevertheless, the District recognizes the importance of and is grateful for the in-kind contributions and services provided by the Friends of the Library which contribute to the District's overall success.

NOTE 10 ELBERT LIBRARY AGREEMENT

In August 2004, the Elbert County Library District and the Elbert School District #200 (the School) entered into an agreement for shared library space. Under the agreement, the School provides space to the District for the operations of the Elbert Library (the Library).

The School's responsibilities include:

- Provide the District with adequate space for the Library
- Provide staffing for the Library during regularly scheduled school hours
- Provide adequate facilities and equipment to allow for shelving of Library materials, research and recreational activities of the Library and its programs, a computer circulation system, telephones and data lines for communication and computer equipment and a copier for the general use of Library patrons
- Provide access to the Library for those hours which are not regularly scheduled school hours but during which the Library has established public hours
- Provide year round maintenance, custodial care, snow removal and all other operational aspects of the facility
- Maintain appropriate insurance on the facility
- Permit its library collection to be incorporated into and circulated as a part of the Library's collection available to the general public

The District's responsibilities include:

- Furnish and make available the Library's collection as a part of the Library
- Provide staffing for the Library for those hours that are not regularly scheduled school hours
- Provide materials and equipment unique to its operation as a Library such as an outside book return for returns during non-public hours and signage directing patrons to the Library
- Maintain appropriate levels in insurance for its activities in the Library and for its materials that are incorporated as a part of the Library
- Be responsible for maintaining appropriate order and/or discipline in the Library during its non-school public hours
- Monitor patron activity during non-school public hours to keep patrons from accessing other parts of the school in which the Library is located but which are not part of the Library

The agreement automatically renews annually under the same terms and conditions as reflected in the agreement and any addendums at the time of renewal. Either party can terminate the agreement by giving written notice to the other party no later than March 1 of the year during which the termination is to occur.

NOTE 10 **ELBERT LIBRARY AGREEMENT (CONTINUED)**

In the event of termination of the agreement, all print and non-print material shall become the property of the School.

NOTE 11 **TAX, SPENDING AND DEBT LIMITATIONS**

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of an expiring tax, or tax policy change directly causing a net tax revenue gain to any local government.

TABOR also requires emergency reserves to be established. These reserves must be at least 3% of fiscal year spending. The District is not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls or salary and benefit increases. At December 31, 2018 there was a \$27,200 restricted fund balance in the governmental fund financial statements and the same balance was reported in the government-wide financial statements as restricted, both for TABOR.

NOTE 12 **MANAGEMENT ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at December 31, 2019, and revenues and expenditures during the year then ended. The actual outcome of the estimates could differ from the estimates made in the preparation of the financial statements.

NOTE 13 **RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors or omissions; injuries to employees and natural disasters for which the District carries commercial and worker's compensation insurance.

NOTE 14 **CONCENTRATION OF CREDIT RISK**

The District's financial instruments that are exposed to concentrations of credit risk consist of cash and accounts receivable. The District places its cash with high credit quality institutions. The District routinely assesses the financial strength of its customers and, as a consequence, believes that its accounts receivable credit risk exposure is limited. At times, cash may be held in accounts in excess of the FDIC insurance limit of \$250,000. At December 31, 2019, the District had funds held with one financial institution which exceeded the FDIC insurance limit by \$19,176.

NOTE 15 **EVALUATION OF SUBSEQUENT EVENTS**

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through March 25, 2002, the date the financial statements were available to be issued. The following subsequent event has occurred:

COVID-19: In December 2019, a novel strain of coronavirus (COVID-19) was reported to have surfaced in China. As of March 2020, the World Health Organization declared the outbreak to constitute a "Public Health Emergency of International Concern" and pandemic.

The COVID-19 outbreak has disrupted the District's ability to provide library services as all libraries have been closed temporarily.

The extent of the impact of COVID-19 on our operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on our clients, employees and vendors all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact our financial condition or results of operations is uncertain.
